**OFFICE BEARERS OF
ALL INDIA SHRI SHIVAJI MEMORIAL SOCIETY, PUNE - 5**

Shri Shahu Chhatrapati, Kolhapur
President

Shri Sambhajiraje Chhatrapati, Kolhapur
Vice-President

Shri Malojiraje Chhatrapati
Honorary Secretary

Shri Ratnakar K. Jitkar
Honorary Joint Secretary

Shri Ajay Uttamrao Patil
Treasurer

Shri V. B. Patil
Chairman, Governing Council

Shri Sahebrao R. Jadhav
Chairman, Managing Committee

Our Heritage

The All India Shri Shivaji Memorial Society was established in 1917 as a broad based educational and social welfare organisation by Rajarshi Chhatrapati Shahu Maharaj of Kolhapur and H. H. Madhavrao Scindia, Maharaj of Gwalior with the benevolent mission of the welfare of the society.

The Foundation - Stone of All India Shri Shivaji Memorial was laid at the hands of His Royal Highness, the Prince of Wales, on 19th November, 1921.

The imposing equestrian statue of Chhatrapati Shivaji Maharaj, executed by the famed sculptor Karamarkar, was unveiled on 16th June, 1928. The inauguration took place at the hands of His Excellency Sir Lesley Wilson, Governor of Bombay.

The president of India Shri Pranab Mukherjee unveiled the statue of Rajarshi Chhatrapati Shahu Maharaj at the All India Shri Shivaji Memorial Society's Campus at Kennedy Road (Near RTO), Pune - 1 on 28th December, 2013.

AISSM Society's Institute of Management (MBA) is one of the 13 Educational Institutes of the AISSMS, all of them are known for imparting quality education. AISSMS has two renowned Engineering Colleges, College of Pharmacy, Polytechnic and College of Hotel Management & Catering Technology amongst others.

Through its various Institutions, AISSMS has provided the society with exemplary citizens. Some of the most decorated soldiers of the Indian Army have been the Alumni of Shri Shivaji Preparatory Military School (SSPMS), the flagship institution of AISSMS. The students are persuaded to maintain strict discipline and regularity, which helps them greatly in their future lives. Good infrastructure, facilities of international standards, excellent and experienced faculty and proper course delivery are some of the highlights of AISSMS institutions.

Founders of All India Shri Shivaji Memorial Society Estd. In 1917

Rajarshi Chhatrapati Shahu Maharaj
Maharaja of Kolhapur

His Highness Shri Madhavrao Scindia Maharaj
Maharaja of Gwalior

His Highness Sir Tukojirao Maharaj
Maharaja of Indore

From The Desk

Officiating Director

“The great aim of education is not knowledge but action.” Herbert Spencer

Education is not merely an acquirement of facts but also of values which help us improve the different facets of mankind. It ensures that we leave the world a far better place than we found it.

A pivotal role of education lies in shaping the personality of a child into a healthy mind and happy soul, who is not only equipped with 21st century skills and aptitude required for academic excellence. The system of education should work as a catalyst in making each child a balanced human being having his core strengths embedded in the learning experiences emanating from our rich socio-cultural roots.

In AISSMS IOM we enterprise to map academic excellence with a good human value system, which in it's myriad ways is ingrained in the culture of the college. To achieve this, we strongly feel that a paradigm shift in the minds of all stake holders should take place so that when the college becomes the hub to initiate and formalize education it has its tenets enshrined in a good value system; the extension of which is thereby taken home where it is further strengthened. And our commitment to such education will always persist in all our endeavors.

The Institute has come up with the college magazine to channelize the creative talents of our students. This is not just a means for us to communicate our thoughts but it also highlights the success and achievement of our pursuits through endeavor of our students in varied expressions of their ideas and creativity.

I congratulate the members of the Editorial Board consisting of the student editors and mentors, who are involved in bringing out the first issue of the College Magazine Flames 2015.

Dr. Sanjay Patankar

Editor

The magazine “Flame” is a snapshot of the skills, talent and creativity of all associated. It is a cherished work that has its roots in the persuasion of doing it. Proper communication plays a vital role in the institution's development. Our magazine will serve to reinforce and allow increased awareness, improved interaction and integration among all of us. Usually we fail to appreciate the good deeds of many people and activities that happen around us as we are engaged in irrelevant talks and assumptions. It could all change if we just pause to think of what is our contribution to our Alma-Matar ----- from which we have been gifted with this blessed life.

Flemes is a medium, first of its kind in the history of IOM, it is a concretization of the idea depending on many people who have worked behind the scenes, planning things to the smallest, this is only a small step towards a long journey. To achieve progress and to meet objectives we have to cross many hurdles.

All credit and thanks goes to the dedicated team work of our students
We look forward to the reader's valuable suggestions and comments

Signing off with a quotation

“If you want to go fast, walk alone, If you want to go far, walk together”.

Prof. Madhu Shridhar

Students' Editorial Experience

Two glorious years in AISSMS IOM!!!! Made every moment undoubtedly & thoroughly lived, learnt and enjoyed. The opportunity of FLAMES 2015 has offered us a huge platform to showcase our talents & skills.

It has been a great privilege for us (student editorial team) being a part of the editorial core committee. Our role as a student editor not only rewarded us with some great learning experiences, but has also opened up the door for many avenues.

We had to perform various activities in the progress of making it a reality, like collection of articles, screening, compilation, college activities, reports, photographs and running after publisher. This was made possible with the timely support and guidance from all our faculty members and a very positive response in the form of interesting write-ups on different topics from our fellow peers. And hence, we are able to deliver our best towards the first edition of magazine.

Lastly, but not the least we would like to take this opportunity to thank our respected Director Sir Dr. Sanjay Patankar, Editorial Board Members Prof. Madhu Shridhar and Dr. Pooja Upadhyay for giving us their unconditional support.

AISSMS IOM has rewarded each one of us with great wisdom which will help us in achieving our respective goals.

We thank the students committee for contributing their valuable support, guidance and keeping faith in our ability to present FLAMES-2015 for the first time at AISSMS IOM.

Thank you.

Core-committee

Modi's "ChanakyaNiti" on the foot prints of the Seven Pillars for success

Chanakya also known as Kautilya&Vishnugupta was the world's first Economist, Master Strategist & Management Guru.His management thoughts and ideas guided Kings and Rulers for Centuries.'The Saptangas' - meaning "The 7 Pillars of aSuccessful Kingdom" are

- **SWAMI**
- **AMATYA**
- **JANAPADA**
- **DURGA**
- **KOSHA**
- **DANDA**
- **MITRA**

1. SWAMI- The King (The Leader), the man who sets the vision and the direction.

Modi the Master strategist and Visionary Leader

Modi is not testing the waters but is in with both feet, he sees India as a "powerful cocktail"- Interesting economy, good companies, lots of potential, attractive valuations, and has envisaged programme to usher the change.

Major challenges in the way- The road to growth is not a roller coaster drive, there are major roadblocks which need to be overcome.

- Continuing distrust and fear of the minorities, labour market inefficiency, declining growth, poor performance of state-run firms, social distraction, historical border disturbance, rising corruption, poor basic infrastructure, drying up of foreign investment, complex and redundant labor rules, unpredictable regulatory environment, poor private public partnership, policy paralysis, complacent bureaucracy, weakening of the federal structure, fulfil the expectations of the electorate, reviving the climate of frustration and cynicism, and kicking the crippled economy towards growth and development are some of the serious issues that need attention.

Narendra Modi's commitment was visible right from the first day in office as Prime Minister – he individually met the invited dignitaries of the SAARC countries-his first baby step towards bringing an underutilized forum - the SAARC, to give more power to the subcontinent.

2. Pillar -AMATYA : Person who stirs the ship in the right direction

Narendra Modi "Always in action"

Capturing The Diaspora And World's Attention

American President Barack Obama has been publicly praising the Indian prime minister. The general perception is, you have won half the battle if US president is seen on your side.

Modi has proved that he is a wordsmith par excellence, his charisma and appeal have stretched beyond Indian shores. He has charmed the US and Australia with his speeches and vowed to keep pushing for change for the betterment in growth and opportunities for its citizens.

Juvenile Justice Act Was Reframed To Punish 16-Year-Olds

The Union Cabinet has approved amendments to the Juvenile Justice Act, treat minors above 16 years as adults for heinous crimes like rape, acid attack and murder but no juvenile can be given the death penalty or sentenced to life imprisonment.

Recognising Power Of Neighbours Like Nepal, Bhutan And Afghanistan

Modi's foresightedness in framing foreign policies are masterstrokes designed to help India increase its soft power in its neighbourhood, especially when there is another country (China) trying to do the same to the neighbours. Modi has held talks with Afghanistan President Hamid Karzai, Maldives President Abdulla Yameen Gayoom, discussed bilateral ties with the Prime Minister of Mauritius Navin Ramgoolani, and visited Nepal and Bhutan to ensure close cooperation..

Developing Deep Relations With Japan And Bonhomie With China

Modi has pushed his agenda of bringing in high-speed trains to India using Japanese technology and finances. Forging enhanced cooperation between India and Japan in various fields of science and technology building the "Look East philosophy".

Modi spoke of peace and progress when Chinese President Xi Jinping visited India even as border skirmishes threatened the two leaders. Modi restrained himself well and won favourable reviews from the Chinese party.

Standing Up To Pakistan's Bullying

The Government has taken a firm stand and have emphatically stated that as long as ceasefire violations continue India will have no dialogue with Pakistan. The Indian government is very vocal both in words and action on insurgency as well as rebuff pressure from Kashmiri separatists. The govt. has raised the issue of JuD chief Hafiz Saeed & underworld don Dawood Ibrahim and spoke strongly against terrorism.

Recognising the Potential Of North East India

India's North East region's faith has been amply rewarded in the Budget 2014. A new sports university, a new channel called ArunPrabha and an annual festival celebrating the diversity of India's North East has been mooted. Good roads and railways will be constructed to improve the region's connectivity to India and ward off threats from China.

3. Pillar - JANAPADA: an area of operation and a market to serve.

Launch Of Make In India Scheme

"Make In India" is a major national program is designed to facilitate investment and innovation in the country as well as add jobs by establishing industries. Bringing reforms in India's labour laws has paved way for investment in the country. The international campaign has caught the attention of many industries across the world.

Swachh Bharat Abhiyan

Swachh Bharat Abhiyan, India's biggest nationwide cleanliness campaign to clean the country of its rubbish and dump. The campaign has already created its intended buzz. "SathAaya, DeshBanaye".

Ending Open Defecation By Building Toilets

Govt. commitment in ending the practice of open defecation is admirable Massive drive to build 111 million toilets in the next five years at an incredible rate of one toilet per second is commendable. and.

Getting Its Way With The WTO For Food Security

To ensure that the Food Security Bill does not clash with international policies, India has held up talks with the World Trade Organisation, holding firm on its stand to support its farmers.

4. Pillar - DURGA: The Fortified City central administrative nerve center.(Infrastructure) both physical & digital

Stable Government That Is Unafraid Of Reforms

Government's focus is on creating change that the country needs. The energetic leader's popularity has won over Arvind Panagariya and Arvind Subramanian, two of the world's top economists, who have joined his government after long careers in the United States.

- Bringing reforms in much-needed laws,
- Selling stake in ailing public sector companies,
- Increasing limits on FDI in other sectors.
- Building 100 smart cities
- Begun work on cleaning the Ganga river

Planning Commission has Been Junked Along With Goms And Egoms

Scrapped the Soviet-era government scheme and changed it into "NeetiAyog" to allow ministers to take faster decisions and add accountability to their actions. The government has replaced empowered groups of ministers (EGoMs) and groups of ministers (GoMs) by experts and inviting citizens to shape the future of the country. To build the necessary trust and serve as a dynamic bridge between government and private sector.

Focus On Economic Reforms And Policy Implementation

Proposes to turn the country into an exporter of arms rather than inflate the exchequer with huge import bills

- Identified infrastructure and defence as its immediate core concerns.
- Initiated work for high-speed trains and a Diamond Quadrilateral rail corridor connecting the major metros,
- announcing ex-gratia payment and relief operations to accident victims

Digitising The Country

Encashing on the IT revolution and the huge number of youth employed in the sector, govt. is looking beyond, it is serious on bringing broadband connectivity in villages, mobile governance and a network of telemedicine in rural areas

5. Pillar - KOSHA - The Treasury

Tourism Boost To Add Jobs And Help Increase Foreign Exchange

The government has introduced visa-on-arrival for all major countries resulting into more and more tourists considering the country as a vacation destination. This will spur more jobs in the tourism sector and also bring in some much-needed foreign exchange into the country..

Launched Jan Dhan Yojana That Brought Crores To India's Banking System

The scheme envisages at least one basic banking account in every household and will give credit, insurance and pension facility to the account holders. More than 75 million accounts have been opened in the first week of the launch.

Lean Ministry that Prefers Austerity

- The government has made it mandatory to get clearance from the Prime Minister's Office before going for foreign tours.
- Fewer ministers in the cabinet means lesser travel expenses for the exchequer.
- Reducing non-planned expenditure by 10 per cent through effective use of austerity measures, banning first-class travel for its ministers and officers and cut down on five star seminars.

Social development programmes-through people movement

Modi's Govt. launched 'Prakash Path - way to light' a scheme for making energy conservation through the spread of LED bulbs, a people's movement.

PM said "it is much more economical though difficult to conserve power than to produce power because while one producing entity can produce a large quantity of power, it requires the active participation of crores of people to conserve that amount of power".

Modi a "man of action", with slew of visa sops

Modi made his way into the hearts of the huge NRI audience during the "Pravasi Diwas" "Ghar Wapsi" day extending benefit to Non-Resident Indians including life-long visa for PIO holders. Modi said "Now India awaits you with opportunities." Modi's pitch has a harder economic aspect, as the diaspora holds investments of more than \$100 billion in India.

6. Pillar DANDA - The Army - Team members

"Saansad Adarsh Gram Yojna" adoption Scheme for MPs

SAGY is a demand-driven, people's participatory scheme. SAGY is to be villagers driven activities and MPs have to use the Rs.5-crore MPLAD fund and mobilise additional resources from Corporate Social Responsibility.

The outcomes will cover broad development indicators such as health, nutrition and education through organising immunization drives, improving mid-day meal schemes, improving Aadhaar enrolment, setting up "smart schools" with IT-enabled classrooms and e-libraries, improving panchayat infrastructure under schemes such as MNREGA and Backward Regions Grants Fund.

7. Pillar - MITRA - The Ally (Mentor)

Philosopher/Mentor

Mr. Vinayak Damodar Savarkar a right-wing majoritarian lead the Hindu Mahasabha, spawned the ideology of Hindutva-the belief that the Hindu identity is inseparable from the Indian identity.

Current Sarsanghachalak of the RSS, Mohanrao Bhagwat, through the latter's father, Madhukarrao.

Political mentor : former prime minister Atal Bihari Vajpayee, and LK Advani

Spiritual Mentors : Ramkrishna Paramhans and Vivekanand

Friends/ dependable : The BJP's 'new guard,' the new generation of leadership and cabinet/alliance colleagues

Prof. Madhu Shridhar

"Wall Street is the only place that people ride to in a Rolls Royce to get advice from those who take the subway."

"It takes 20 years to build a reputation and five minutes to ruin it. If you think about that, you'll do things differently."

- Warren Buffett

“Tips for Sales Executives”

Generally people are scared to enter in the field of Sales. They think it is a very difficult job. They are confused between marketing and selling. Selling is an integral part of marketing. People who learn to sell their skills, enjoy being in the field of selling.

Some tips to be followed by Sales Executive:

- Sharpen your selling skills instead of focusing on selling only.
- Whenever we meet with our client/customer, we should greet them first or talk on general issues.
- Understand the need of the client first and accordingly suitable product should be shown, so that he can easily relate with the product and get convinced.
- Don't overlook what the client is looking for.
- Many times a sales executive starts selling without having full knowledge of a product.
- Be clear on the weaknesses of the product.
- Highlight the strengths of your product functionality rather comparing with the competitor's weaknesses.
- Identify the influencer amongst the client's group, catch his attention and try to convince him/her.
- Be a patient listener and do not jump the gun.
- Allow the customer to express his need, his pocket capacity and his curiosity.
- As the customer is the final link he has full freedom to ask any query. The sales executive has to be firm while responding to the queries.
- Never, ever argue with your client.
- Use the “Mocking bird” standard. Apply the idea in “To Kill a Mocking Bird” to walk around in someone else's shoes to better know that bird.
- Put yourself in the shoes of the customer while satisfying his queries & problems.
- Treat client with respect & place their need ahead of your own.
- Any fumbling and hesitation while responding to the query starts reflecting into negative impression and then customer loses his interest.
- Don't indulge in Self-Promotion
- Dress professionally.
- Don't overlook customer service.

All above tips will help to convince the customer to take positive action towards the product and to maintain the healthy relationship with the customers in future. It will help the sales executive to be confident while dealing with the customer and surviving in the field of SALES.

Prof. Rashmi Phirake

A beautiful speech by **Sundar Pichai – an IIT-MIT Alumnus & Global Head Google Chrome:**

“The Cockroach Theory for Self Development.”

At a restaurant, a cockroach suddenly flew from somewhere and sat on a lady. She started screaming out of fear. With panic stricken face and trembling voice, she started jumping, with both her hands desperately trying to get rid of the cockroach. Her reaction was contagious, as everyone in her group also got panicky. The lady finally managed to push the cockroach away but, it landed on another lady in the group. Now, it was the turn of the other lady in the group to continue the drama. The waiter rushed forward to their rescue. In the relay of throwing, the cockroach next fell upon the waiter. The waiter stood firm, composed himself and observed the behavior of the cockroach on his shirt. When he was confident enough, he grabbed it with his fingers and threw it out of the restaurant.

As Sundar Pichai was sipping his coffee and watching the amusement, the antenna of his mind picked up a few thoughts and started wondering. Was the cockroach responsible for their histrionic behavior? If so, then why was the waiter not disturbed? The waiter handled it near to perfection, without any chaos.

Then he further thought that it was not the cockroach, but the inability of the ladies to handle the disturbances caused by the cockroach that disturbed the ladies. He realized that, it is not the shouting of his father or his boss or his wife that disturbs him, but it's his inability to handle the disturbances caused by their shouting that disturbs him.

More than the problem, it's his reaction to the problem that creates chaos in his life.

Lessons learnt from the story:

I understood, I should not react in life. I should always respond. The women reacted, whereas the waiter responded.

Reactions are always instinctive whereas responses are always well thought of.

Career Success Begins with Leadership

Leadership begins with self-discovery

We cannot touch and feel “leadership,” though we can see and often hear the results of it when it is effective or ineffective, of good character or poor ethics. There are literally hundreds of leadership programs available for executives, mid-level managers and new leaders. Many of these address developing the abilities of leaders in the areas of strategic and critical thinking, enhancing relationships, negotiating, managing risks, people, change, conflicts and financials, making the right decisions, managing work-life balance - all of which are no less difficult to transact than the technical skills required in any strategic leadership function.

But beyond fundamental academic or technical skills, people need to learn how to identify their strengths and combine those with their passions in ways that empower them to establish and achieve a vision for their lives. They need to learn how to manage their time and to set, pursue and systematically reassess their progress toward achieving goals that empower them to realize their potential. Equipping people with the tools they need to seize control of their futures is a powerful step toward securing a strong future for these individuals, and also our nations as a whole. The best solution to our countries’ problems lies in helping people, especially our future leaders, to learn to live reflective, purposeful lives.

Helping our leaders to learn and understand who they are is important. Through their triumphs and trials, they will have the processes and tools to know how to draw from inner strength and act with discipline. This understanding will help them cope with the pressures of addressing the issues and opportunities of globalization and consolidation, the changing go-to-market strategies, the explosion of available information or more sophisticated, knowledgeable clients and customers. And, for those just trying to survive each day, they must have this strength and understanding to develop the means to access fundamental necessities of living, and to persevere beyond their circumstances.

The earlier we initiate this process’s of self-discovery, the better. Our new hires often become the leaders of corporations, organizations, communities and government. In serving as executives and managers, these leaders are expected to serve as community influencers and corporate representatives who heed the needs of those experiencing poverty, health crises or lack of education, all the while assessing any political and governmental discrimination, criminality or other implications. Giving them self-knowledge and a vision at the outset of their careers gives them the freedom to choose the direction they desire and the environments in which they want to work and live. It helps them from stumbling into the quicksand of life’s disappointments.

To be successful, people must have a vision of what success looks like for them. With a well-understood, deep motivation for their personal and professional pursuits, their priorities will come into focus. They will not be thinking about procrastinating, taking a detour from their calling, or sabotaging their success. When people are truly focused and engaged, they become the masters of their destinies. They are truly free.

Gaining self-awareness—and then doing something about it—is not a task everyone is willing to take on. Many people are content with things the way they are. People may desire greater success, but they don’t want to exert the effort to improve themselves. One possible reason for this is they don’t even realize they have the power to do something about it if they wanted to. If you’re not aware there’s a problem, or you don’t think you have the ability to change your circumstances, you will stay where you are. The good news is that by the act of looking inward to seek our true selves, we are taking responsibility and moving toward self-actualization. ***You can only start to maximize your potential once you know exactly who you are, and what is important to you.***

Leadership abilities and characteristics must be well-developed in order to lead effectively. Yet, there is a fundamental dimension missing from this equation. It encompasses leaders discovering the core of who they are -- and who they can become. There is a constant in leadership. It is the freedom of the individual to know precisely who he is and what drives him, and on this platform become clear on how he must lead, exercise his abilities, display his character, make his choices and serve his constituents. Exceptional leaders are able to adapt to new tasks, to new roles, to new environments, and still be productive. They realize that with the management and growth of their “internal strength,” they can and must positively respond to the external environment, which is often outside of individual control.

A leader’s depth of internal knowledge and strength stands the test of time, congruently, consistently, and no matter the nature of the circumstances. This leadership foundation can be one of the most elusive to discover, unless the process and tools for doing so are made accessible. Once accessed, the ensuing discoveries are keys to opening doors for developing new abilities and characteristics, as well as creating or recognizing new opportunities.

Leadership is everything, whether you are leading a life, a community, an organization or a business, or you are in school. If you want ownership of your life, business and its privileges then progress and transformation should begin with you.

Today's Youth!!!

I deeply desire that this article would impact your thinking towards the today's youth, their potential and capabilities and what they mean to India. I believe that the youth of today are the symbol of strength and power of our nation.

Someone has rightly remarked and I quote, "youth is joy, the little bird that has broken out of the eggs and is eagerly waiting to spread out its wings in the open sky of freedom and hope. Youth is the spring of life. It is the age of discovery and dreams." How true!!!

While in the words of an English poet, "youth is not a time of life but a state of mind, a temper of will, quality of imagination, a predominance of courage over timidity, of the appetite for adventure over the love of ease."

I believe that the phases of being a youth are the formative years of an individual in this world. They are the most sensitive times of life where most of the individual's personality is developed. It is a sudden surge of strange feelings as a result of a new-fangled experience of freedom. Their lives are regulated more by moral feelings than by reasoning- all their mistakes are the direction of doing things excessively and vehemently. They overdo everything – they love too much, hate too much, and the same with everything else.

Night outs, lounging in the pubs, tapping your feet to the rocking music in discs, showing off 8GB iPods, smart phones, branded clothes, shoes are among the first images which came across one's mind when they think of the youth of today.

Today's youth are embarking on a new era of things the previous generation didn't have. Technology is moving so fast that changes the face of activities that our youth partake in. even with the all new gadgets, games, cellphones and texting, and hanging with their clicks they are becoming generation with the ability to create their own bubble and their different social world. Different from what we typically see a place where we look people in the eyes, shake hands, talk face to face and know what is right and what's wrong.

Relationships are being built online or through phones. Keyboards and keypads are now becoming the keys to our heart. Technology provides a way of communication but now is becoming only way to communicate with today's youth because it has made one interaction less frequent technology like iPod and smart phones make a personal bubble and make it portable.

In a nutshell, the youth of today at large are carried away or obsessed with the latest and sophisticated technology more than anything else. They feel if they do not have all these 'cool stuffs', then it will affect their image in college campus or at their common hang-outs. At times their outlook is limited and views confined to enjoy the now to their fullest and be less concentrated of what tomorrow may hold for them. Youth in today's society feel a need to be rebellious because of individualism and peer pressure from role models.

It is not that the youth is not without hearts. They are not bereft of compassion. However, their focus is being turned away from fruitful tasks, and turned towards shallow and self-seeking things. It's time the youth realize their power, their role their duties and their responsibility and stand up for their rights. We are the lights of the future, entertainment is fine but to a certain limit but we must draw a line between our responsibilities and fun. We must learn to be even more responsible and see the world in a much wider perspective.

The youth are not just beneficiaries' but agents of change and protagonists in their own development and of society, in how they develop their skills, attitudes and desires to participate in a life of their own development and of society, in how they develop their communities, as a volunteer, as a good neighbor, by working in schools or civil society, or service oriented community projects where they learn to be good citizens.

The youth of the nation have the potential to be great to make a positive difference in the world. Let them have a positive courage to say what needs saying, so their children will hear, and never live in fear. Let the youth of this nation become generation of change.

*"You can design and create,
and build the most wonderful
place in the world. But it takes
people to make the dream a reality.
I only hope that we don't lose sight
of one thing - that it was all started
by a mouse."*

-Walt Disney

The Lazy Bird...

There was once a little bird who was very nice, but very, very lazy. Every day, when it was time to get up, they had to shout at him again and again before he would finally struggle out of bed. And when there was some job he had to do, he would keep putting it off until there was hardly enough time left to do it. People kept telling him "What a lazy bird you are! You can't just keep leaving everything to the last minute".

"Bah! There's really no problem", answered the little bird, "I just take a bit longer to get around to doing things, that's all".

The birds spent all summer flying and playing, and when autumn came and you could start feeling the cold, they began to prepare for the long journey to a warmer land. But our little bird, lazy as ever, kept putting it off, feeling quite sure that there would be plenty of time to prepare for the journey. That was, until one day when he woke up and all the other birds were gone.

Just like every other day, several of his friends had tried to wake him, but - half asleep - he told them he would get up later. He had gone back to sleep and only woke up again much later. That day was the day of the great journey. Everyone knew the rules: you had to be ready to leave; there were thousands of birds, and they weren't going to wait around for anyone. So the little bird, who didn't know how to make the journey alone, realised that because of his laziness, he would have to spend the long cold winter all on his own.

At the beginning, he spent a lot of time crying, but he had to admit that it was his own fault. He knew he could do things well when he put his mind to it so, putting his laziness aside, he began to prepare for the winter. First, he spent days looking for the place that was best protected from the cold. He found a place between some rocks, and there he made a new nest, well built with branches, stones and leaves. Then, he worked tirelessly to fill the nest with fruits and berries, enough to last the whole winter. Finally, he dug a little pool in the cave, so he would have enough water. When he saw that his new home was perfectly prepared, he began to train himself on how to get by on very little food and water, so that he would be able to endure the worst snowstorms.

And, although many would not have believed it, all these preparations meant that the little bird did survive through the winter. Of course, he suffered greatly, and not a day of that winter went by without him regretting having been such a lazy little bird. When the spring finally arrived, and his old friends returned from their voyage, they were all filled with joy and surprise at seeing that the little bird was still alive. They could hardly believe that such a lazy bird had managed to build such a wonderful nest. And when they realised that not even a bit of laziness remained in his little body, and that he had turned into the most hard-working bird of the flock, everyone agreed that he should be put in charge of organising the great journey next year.

When that time came, everything was so well done and so well prepared that they even had time left to invent an early morning wake-up song, so that from that day on no little bird, however lazy, would have to spend the winter alone again.

The Value Of Time

To realise the value of one year, ask student who has failed in his exam.

To realise the value of one month, ask a mother who has given a birth to a premature baby.

To realise the value of one week, ask an editor of a weekly.

To realise the value of one day, ask a daily wage labourer.

To realise a value of one hour, ask the lovers who are waiting to meet.

To realise the value of one minute, ask a person who had missed the train.

To realise the value of one second, ask the person who has survived an accident.

To realise the value of one milli-second, ask the person who has won the silver medal in the olympics.

I'Am Here For You

I just wanted to tell you, I am here for you – because I am. Not in the therapist sense, but the real sense, I love you enough to make room for your pain in my heart and handle it like my own. Or better than my own usually ends up stuffed into a back corner of my brain and left there to unrest into viscous, sour liquor.

I' am here for you honestly, sometimes painfully so. I may not have firsthand experience with the exact thing you are going through, but I know what it means to hurt. Hurt translates pretty well. I know what it's like to feel silenced, shut down, wounded. To feel like there's no one who really understands, or cares, or will even make the genuine effort; to feel like even talking about it is nothing but a pointless stirring of air. I care about you too much to make you feel that way alone.

I may not give the best advice, I' am here for you. I may not give you any advice at all – sometimes there just isn't any, just try what hurts the least and hope for the best – but I'm listening. You can talk to me about anything you want; your fears and apprehensions, the things you're afraid to acknowledge let alone say out loud. They probably won't go away but may be they'll get smaller and easier to deal with, and that's still something.

I' am here for you, put it on my shoulders. I'm here for you when your heart is squeezed dry. When you open your mouth to speak & no sound comes out because language can't articulate the white noise in your head, I here you. Pour your tears into me, wet my shirt sleeves and dry your eyes with it.

Genuine friendship is a rare thing & that's why I want to tell you I'm here for you. And when I say I'm here for you, it's because I need you too – your existence makes me lighter; your presence helps tease out the mess of the world. Is that weird? Are people allowed to feel that way about other people anymore?

There are people all over the place, we're always stuck in this incredible anthill, but when we find the person we can actually trust and let our guard down with we split to them like dust to sweat. And we're not trained to feel this way. We're supposed to be so evolved, so independent & self-serving, that sometimes we forgot what it's like-and-that it's okay-to need someone to love us, take care of us, take on our emotional weight.

I'm just here for you...

I'm here for you because I am that person, and because you are that person for me.....

A love story

Once there was an island where all the feelings lived together .

One day there came a storm in the sea and the island was about to drown .

Every feeling was scared but Love made a boat to escape .

All the feelings jumped in the boat except for one feeling, Love tried & tried but Ego didn't move .

Everyone asked Love to leave Ego & come in the boat but Love meant to Love . It remained with Ego .

All other feelings were left alive but Love died because of Ego!!!!

THINK OVER IT

Sakichi Toyoda

"Son of a poor carpenter, Toyoda devoted his life to studying and developing textile assembly. In the 30 years of age completed Toyoda Loom. This then led him to establish the origin of the Toyota Assembly, namely the Toyoda Automatic Loom Works, Ltd. in November 1926. Inventive, Industrious and devoted, Sakichi Toyoda Founded Toyota Industries."

"Everyone should tackle some great project at least once in their life."

Hostel Life..... Room No.8

Is this independence?? The 2 am Maggie noodles? Or the unlimited late nights & never ending parties? Ask youngsters & they will say this is what they want most in their life S-P-A-C-E.

Every phase of life is a learning experience by itself & I realized this when I got into a hostel. I spent one precious year of my life there, realizing how important it is for a person to live in the hostel & how much one can gain living there. It was a true learning experience, it gave an opportunity to face life, people and situations all on my own and prepared me to face life ahead in a more mature and better way.

When we live with our parents all our wishes are fulfilled but in hostel we cannot expect the same. From my experience this is I learned by living in the hostel.

ADJUSTMENT

First time in life I shared my room with five girls with different nature, likes and dislikes. Sharing bathroom was the worst task in my hostel.

INDEPENDENT\SELF-CONFIDENCE

Living in the hostel I learnt to be independent and make my own decisions. It also helped me to be self-confident.

MONEY MANAGMENT

This is yet another important thing that I learnt living in the hostel, how to manage my expenses and how to live in a limited budget.

I have heard people say that hostel life cannot be described in words, and now I can say that I feel the same. It's really true. As it was full of friends, independence, freedom, love, care, sharing, gossiping, fights, late night studies, etc. which contributed to being a part of all our crazy incidents & wild experiences. In such a short span of time I have done so many fun & crazy things. Hostel life was the best part of my life.

As living together brought everyone close & eventually became as one big family. Now, as I sit back & recollect those days, I wish I could get back another such night. At the end, I would like to dedicate this poem to all my roomies of room no.8.

Room No. 8...

Hostel life hai badi mast
Chuti waale din rehte hai sust
Subah 8 baje ke baad jagna
Raat ko 2-3 baje ke baad sona
Phir sunder sunder sapno me khona
Mess ka wo khana bhool nahi sakte
Tumhare bin yaaron reh nahi sakte
Dosto ke saath mil baith kar khana
Phir mess se bahar aakar kehna-
Saala kya bakwas khana bana tha
Karna wo Rector ko raat ko tang
Hostel me padai lekin masti bhi sang
Heater pe raat ko magi banana
Doston ko raat ko coffee pilana
Sath baithkar assignment banana
End time pe submit karwana
Padne likhne ka yahan naam nahi
Masti ke siva koi kaam nahi
Room me hoti hai yaaron ki mehfil
Jinke sath hum yaaron jaate hai ghul-mil
Dhona wo kapde chuti waale din
Kaise reh paaungi mai tumhare bin
Room ki safai, sang me padai
Mess me jaate hi ghar ki yaad satai
Lena wo doston se study me madad
Dost koi ruthe to hota hai dard
Room me baithkar carrom khelna
Raani ke piche sankat jhelna
Bhejna wo sms dosto ki band bajana
Ruthe hue dosto ko sms se manana
New year celebration bhool nahi sakte
Without masti yahan koi reh nahi sakte
Dekhna wo raat ko lappy pe filmey
Gungunana raat ko corridor me nagmey
Hostel ki party bhuli nahi jayegi
Sach me yarro tumhari badi yaad aayegi
Karti hu rab se ek hi dua
Hum na ho yarro kabhi bhi juda

Are Intelligent People More Depressed?

It has been noted in various studies that people with higher IQ tend to be more depressed or unhappy with life.

The intelligent people tend to look at the bigger picture in life, and there they start to ask the basic questions revolving around humanity and individual existence.

They try to find meaning in this absurd and chaotic world on the whole, which they cannot control much and this is the reason for their sadness.

Another factor is socializing. Intelligent people tend to spend quite some time with their thoughts in solitude, hence they socialize less than average people.

Therefore, generally speaking, intelligent people have less social interaction compared to average people. This hinders their emotional development as they rarely find someone who can think on their level and have mutual emotions towards things. Smart people are also rarely interested in other people's life.

This also leads to low key social life, which can also feel lonely at times and lead to sadness or depression.

Not all intelligent people are appreciated for their smartness. Many super-intelligent people, like Albert Einstein, do tend to achieve fame and success.

But mostly, intelligent people see average people being more appreciated than them in the social aspect of life. This is another reason intelligent people might get depressed.

Ignorance is bliss, but smart people are rarely ignorant. Socially the smart people are also isolated from a group, for example, in a high school nerds will be on the lower side of the social order, isolated from the famous kids. Because such people also think a lot more, they tend to get emotionally disturbed over small things.

They also prefer to run things their way if they know what they are doing, and if they are resisted, they feel unappreciated. Sometimes average people are intimidated by smart people because they feel somewhat inferior to them intellectually.

The things smart people talk about are also unknown to the average person to some extent and hence deemed as boring. Smart people might also develop superiority complex, making their ego too big to enjoy a happy social life.

An Admirable Woman...

There is a women who always keeps her head up high,
Her eyes sparkle like a bright star in the sky.
She has the stamina, beauty, and courage that one would admire,

Even the love and happiness one inspires.
She is a women that one can always count on,
And a women that sees no wrong.

Her beauty shines from the inside out,
It flows like a journey down a long route.
Her smile shines beautifully like the sun rising over the horizon,

And her intelligence, wisdom, and hard work are not surprising.
She is a genuinely caring women who goes the extra mile to help one in need or broken hearted,
And throughout all of her hard work,
no one ever sees her fall apart.

Real Heroes Are Icons Of New Generation

Certain have fallen on the latest crisis threatening with all operations, including the “TAJ MAHAL HOTEL in Mumbai” the city is now having a sign of relief.

Country is going through a tearful adieu to some brave officer's.

ATS chief Hemant karkare, encounter specialist Vijay salaskar, ACP Ashok kamte and NSCT Major Sandeep Unnikrishnan and many others. Laid down their lives while, taking on the militants in one of the bloodiest terror attack in the country.

The biggest terror attack on India needed some brave hearts to fight it. When, Indian history is written past November 26th. The name of Hemant karkare, Ashok kamte, Vijay salaskar and Sandeep unnikrishnan's will definitely require a golden stylus. They are the true heroes and we proudly salute the mighty hearts.

We are the huge fan of Major Sandeep because, they touched to all youngster's heart when, we read that, “I will handle” then were his last words to his commandos before he was mercilessly attacked by the terrorist.

These commandos are true heroes as they never compromise on principles and true patriots at heart it takes a lots of courage to a person to give up his life for the country.

“we truly respect them for it.”

Only A Minute

*It only takes a minute ,
To say a word of cheer.
It only takes a minute,
To dry a falling tear.
It only takes a minute,
To try and understand.
It only takes a minute,
Some broken heart to mend.
It only takes a minute,
To brighten someone's day.*

he slept on the floors of his friends' places,
turned in coke bottles for 5 cents to use
the money to eat with, and hiked 7 miles across
town once a week to get a decent meal at the
Hare Krishna temple in town...
...and then went on to become, an
American entrepreneur, an inventor,
CEO & CO-Founder of Apple Inc.*

*“Being the richest man in the cemetery doesn't matter to me.
Going to bed at night saying we've done something wonderful,
that's what matters to me”.*

Titanic: 28 fascinating facts

On this day in 1912, the Titanic sank. Here are 40 facts about the ship, and its demise

Titanic: 10 ways to mark the anniversary

Facilities on board included a gym, pool, Turkish bath, a kennel for first class dogs, and a squash court. It even had its own on board newspaper

1. The RMS Titanic was the world's largest passenger ship when it entered service, measuring 269 metres (882 feet) in length, and the largest man-made moving object on Earth. The largest passenger vessel is now the MS Allure of the Seas, at 362 metres.

2. The ship burned around 600 tonnes of coal a day – hand shovelled into its furnaces by a team of 176 men. Almost 100 tonnes of ash was ejected into the sea each day.

3. The ships interiors were loosely inspired by those at the Ritz hotel in London. Facilities on board included a gym, pool, Turkish bath, a kennel for first class dogs, and a squash court. It even had its own on board newspaper – the Atlantic Daily Bulletin.

4. There were 20,000 bottles of beer on board, 1,500 bottles of wine and 8,000 cigars – all for the use of first-class passengers.

5. The Grand Staircase on board descended down seven of the ship's 10 decks and featured oak panelling, bronze cherubs and paintings. Replicas can be found at the Titanic Museums in Branson, Missouri. See www.titanicbranson.com

6. The staircase at the White Swan Hotel in Alnwick, contains banisters from the Grand Staircase of the Titanic's sister ship, the Olympic. The staircases are presumed to have been identical.

7. Only 16 wooden lifeboats and four collapsible boats were carried, enough to accommodate 1,178 people, only one-third of Titanic's total capacity, but more than legally required.

8. There were 246 injuries and two deaths recorded during the ship's 26-month construction in Belfast.

9. Twenty horses were required to carry the main anchor.

10. 100,000 people turned up to see the ship's launch on May 31, 1911.

11. 22 tons of soap and tallow (rendered beef or mutton fat) were smeared on the slipway to assist its unhindered passage into the River Lagan.

12. The ship made two stops after leaving Southampton – at Cherbourg in northern France, and Cobh (then Queenstown) in Ireland.

13. Of the 885 crew on board, just 23 were female. 699 came boarded in Southampton, and four in 10 were natives of the town.

14. The last supper served to first-class passengers consisted of 11 courses.

15. First-class passengers were given a music book containing 352 songs. Musicians on board were required to know them all, in case requests were made.

16. John Jacob Astor IV was the richest passenger on board, with a net worth of around \$85m (approximately \$2bn today), and went down with the ship. One legend claims that after the ship hit the iceberg he quipped to a waiter: "I asked for ice, but this is ridiculous".

17. Another notable victim was Benjamin Guggenheim, an American businessman. Realising that the ship was going down, he and his valet, Victor Giglio, reputedly changed into their evening wear while he remarked: "We've dressed up in our best and are prepared to go down like gentlemen." They were last spotted on deck chairs drinking brandy and smoking cigars.

18. Noel Leslie, the Countess of Rothes, was also on board, but survived. She is mentioned in an episode of Downton Abbey. "Isn't this terrible? When you think how excited Lucy Rothes was at the prospect," remarks the Countess of Grantham when she hears of the disaster.

19. Two of the nine dogs on board were rescued – a Pomeranian and a Pekinese.

20. Numerous people held tickets for the journey, but did not actually sail, including Milton S. Hershey, founder of the chocolate firm, Guglielmo Marconi, and Alfred Gwynne Vanderbilt, who died on the RMS Lusitania three years later.

21. The last remaining survivor of the disaster, Millvina Dean, died on May 31, 2009, aged 97. She was two months old at the time.

22. The iceberg was spotted at 11.40pm on April 14, 1912, by lookout Frederick Fleet, who proclaimed: "Iceberg! Right ahead!" Fleet survived the disaster and was a lookout on the RMS Oceanic during the Twenties, before serving in the Second World War. Pranksters placed a pair of binoculars on his grave in 2012 with a note "sorry they're 100 years too late".

23. The iceberg was around 100 feet tall and came from a glacier in Greenland.

24. Just 37 seconds elapsed between the sighting of the iceberg and the collision.

25. First Officer William McMaster Murdoch ordered the ship to turn, but it was too large to do so in time. It has been suggested that the ship would not have sunk if it hit the iceberg head-on. Murdoch went down with the ship; a memorial to him is found in his hometown of Dalbeattie, Kirkcudbrightshire, Scotland.

26. Edward Smith, the ship's captain, also went down with the vessel. His last words were "'Well boys, you've done your duty and done it well. I ask no more of you. I release you. You know the rule of the sea. It's every man for himself now, and God bless you.'" A statue of him can be seen in Lichfield, Staffordshire.

27. The ship received six warnings about icebergs during the voyage.

28. A lifeboat drill, scheduled for April 14, was cancelled for unknown reasons.

Dreams...

I sleep in the clouds, dream in the sky, I'll keep dreaming as life passes me by,
I think my dreams keep me sane, I dream of happiness, a life without pain,
Some people say I'm stuck in this place, And I'll never go anywhere,
But in my dreams I've already been there, I know some day I'll have to wake up,
But I feel the real world is more like a nightmare, I'm safe in my closed eye wonderland,
This poem goes to all the dreamers that understand, No matter what they say...
Keep your dreams but don't dream your life away.

Parents are the Best Teachers

Parents are the one responsible for providing the needs of their children like love, attention, support, material things and most of all knowledge.

Parents are indeed the best teacher of their children; they give knowledge in several ways.

First, they are the one who taught their child to talk in their early age. Mama, Papa were the first words to utter. It was also the moment where the child learned to communicate and express what she or he feels about things around him or her.

Second, they are also responsible for the locomotor development of their child's body. The first two steps of their child for walking was facile because of the helping hand patience and enthusiasm given by them.

Third, parents are responsible for helping their child in their first day in school, they taught how to write their names, how to read the ABC, how to sing the different nursery rhymes, how to count and how to deal with his or her classmates and teacher.

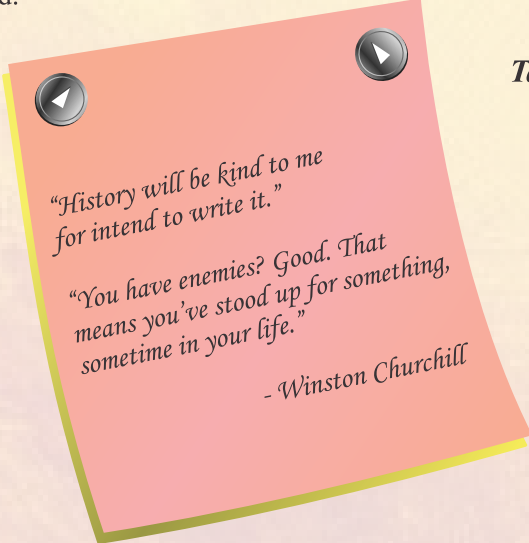

Fourth, Parents teach their children to show altruism even in times of ups and downs. They were responsible in molding their child's character as well as beliefs in life, especially when adolescence period of their children is imminent.

This is the best time for the parents to guide and help their children to build their character as the saying goes, "A child is the father to a man." stating that the parent's character is very significant in molding the character of their child.

Last, parents teach their children to befriend God in their life, because having God in life is very important and this will make us a better person.

Parents teach a lot of things from the first step to walk, first words to say, first time to face challenges in life and develop love in their heart for having God in their life. Because of the above statements, indeed our parents are definitely the best teacher in the world.

Always...Kabhi_Kabhi...

Heyyy..friends..I'm sharing one of my experience or say a feeling we consider ourself as 'Human being'
But we really do the things , the way we are there to implement,, Hard to say this...
One day I was there with my relatives house n there was a 'pet'.

As we all knows time waits for none so I was just wandering here n there and I was there for One day. So in starting the pet who used to barks on me as I was little unknown for him but after sometimes
pet stopped barking on me , I felt relaxed n passed him a smile ... n offered him a chocolate from that time he used to be with me all_time wherever I go n whatever I eat I used to share with him. So there's created a good bonding between us..all this happened in time span of 4 hrs.

I met no. of people in my life n I know them personally which is important But some of them came so closed to me n a bond created...

Yes there was a soft corner for the one...

In every1s life there are up's n downs n its normal to got hurt for a time but after that only we can get Happiness...without hard time You can't get happiness...that's LIFE !!!

But in animals life don't they have Heart just as we human being have to feel , to share , to express... YES they have somewhere "better" than us.. they understand what we try to say n what we want to express.

Not everytime but in life the moment we are sad or upset or feels low for some reasons , animals can understand you better sometimes...

If you don't want to eat just because you are upset the pet in your home also refuse to eat...because they understand your expression_n_know something went wrong n to understand this only is a Great thing... I thinks soo!!!

Atlast I wanna conclude that don't run behind a "beautiful girl"or "handsome boy" there is no guarantee that he/she will understand or love's you... but I can definitely say that an animal can understand _n_loves you.

Well I'll only say that after having so much of experience ...
Animals Are BETTER than "we" Human beings.....

Dream Big

If there were ever a time to dare, to make a different embark on something worth doing, it is now not even necessary for any grand cause but for something that tugs at your heart, something that you feel passionate about it, something that you have dreamed about.

You owe it yourself to make your days here count. Have fun. Dig deep. Stretch. Dream big know though, that things worth doing seldom come easy. There will be good days. There will be times when you want to turn around, pack it up and call it quits. Those times tell you are pushing yourself that you are not afraid to learn by time.

Persist, because with an idea, determination and right tools you can do great things. Let your instincts, your intellect, and your heart guide you. Have trust, believe in incredible power of human mind. Believe in the good of making difference. Believe in working hard. Believe in laughing and hoping.

Value lazy afternoons, value lasting friends, look forward with anticipation towards all the things that will erase your path this year. The start of something new brings the hope of something great. Anything is possible. There is only one you will pass this way only once. Do it right.

Know The Unknown

1. Why is sky blue ?

Sunlight ,which of all the colours of human eye, is a mixture of all the colours of the rainbow. When the sunlight passes through the atmosphere ,it scatters and spreads into all directions .the blue components of sunlight is scattered more sharply than any other component . That's why the sky appears blue .

2. What is cosmic light ?

The cosmic microwave background radiation of CMB for short , is the faint glow of light that fills the universe. It is the after glow of the big bang , streaming through space , lasts for 14 billion years . it is the oldest ,light we can see . the light is important in the study of cosmology because it carries the finger print of the universe as it was at the time of its birth.

3. Why can't you tickle yourself ?

The answer lies at the back of the brain in an area called the cerebellum , which is involved in monitoring movements . When you try to tickle your body , the cerebellum predict the sensation and this prediction is used to sensation and this prediction is used to cancel the response of other brain areas to the tickle .

4. What is sensex ?

The commonly used name for the Bombay Stock Exchange Sensitive index-an Index composed of 30 of the largest and most actively traded stocks on the Bombay Stock EXCHANGE. (BSE).

5. What makes tsunami such a deadly wave ?

What makes tsunami's so deadly is the amount of water they move and the speed they travel .A normal wave usually created by ocean and move slowly . In a tsunami, the entire section of ocean from top to bottom rushes away from the quake site at nearly 800 Kms. An hour . Furthermore , it travels so stealthily that if you were sitting in a boat on the open ocean ad it passed under you , you might not even notice it .

6. What is famous America SETI Project ?

SETI is the Search for Extra Terrestrial Intelligent group, located in Berkeley, C.A. They have been searching for more than 40 years .The project is dedicated to the search for radio signals from space indicating the existence of life beyond that of the earth .

7. What is déjà vu ?

Déjà vu is the peculiar feeling that a place , situation , person, action or conversation is familiar and has been experienced . Occasionally déjà vu is accompanied with recognition . Some theorists believe déjà vu is information that is received in dream state and recognized or retrieved when coming upon the actual person , place or event .

Tomorrow

I may never see tomorrow,
There is no written guarantee,
And things that happened yesterday.
Belong to history !

I cannot predict the future,
I cannot change the past ,
I have just the present moment,
I must treat it as my last !

The unkind things I do today,
May never more be undone,
Any friendship that I fail to win ,
May nevermore be won !

I may never get a second chance ,
On bended knees to pray,
And I thank God with my whole heart,
For giving me the day !

The moment ,which is there now ,
Will soon pass away,
And will be lot to me forever,
As a part of yesterday.

Njoy Lyf...™

Hi guy's, am Amit Raut and I want to share my experiences about life in first year, dedicated to my friends group NJOY LYF. Life offers many challenges but through the love I receive from my family and friends I become strong enough to face them. People have different perspectives that how to enjoy life. For me, there are many things that make my life enjoyable. We started our first day with introduction, we knowing each other; we did role plays, sometimes flop sometimes super hit. We did presentation sometimes with scripts sometimes with by heart, we did case studies sometimes slowly sometimes steadily, we did assignments sometimes by on own sometimes by owe, we bunked the lectures sometimes wasted sometimes enjoyed, we passed comments sometimes caught sometimes we turn the tables, we attended seminars sometimes only heard sometimes listen carefully. I was not popular but I had good friends. I was not rich but I had what I needed. Sometimes I was not liked but I know I was loved. All this thing is a gift of quiet blessing only friendship can impart, for a friend shares life with gentle hands, kind words and a caring heart. For me that is NJOY LYF, life is too short to be sad all the time, so laugh every day, smile when you want to, love the ones that care for you, forget the ones that don't, hangout with friends whenever possible, regret nothing because at one time it was everything you wanted, never backstab someone because they will stab you back, and just live life to the fullest because you only live once. Every day is special if you just THINK. Every moment is memorable if you FEEL. Everyone is unique if you just SEE. Life is beautiful if you enjoy life. At least I must say life is about hard work avoiding shortcuts, ignoring the drama, laughing with friends, loving your family, and being happy with what you have.

*Its too late when we will have our childrens and wife....
For now time being N'JOY LYF... N'JOY LYF....*

What's This Life For???

A Friend Is Like...

Friend is like a forest,
Or a lovely, calm blue sea,
A refuge from life's problems,
As only a friend can be.
A friend is like a song, Soothing to the brain,
Distracting us from trouble,
Neutralizing pain.

A friend is like some ice cream
On a sweltering summer day,
Making life delicious,
In a friend's own special way.

A friend is like a blanket,
Bringing peace and rest,
A cocoon of warmth and pleasure;
When we are tired or stressed.

A friend is a bit of everything.
That makes life good and sweet,
And you, my friend, are all that ,
You make my life complete!

आनंद आणि दुःख का मानायच !
जीवन जगत जायच, झरत राहणाऱ्या पाण्याप्रमाणे
दाटलेल्या नभाप्रमाणे काळोखाला दुःख नाही मानायच !
त्यातल्या तुषारांना आनंदाने झेलायच !

कोणी विचारल म्हणुन सांगायच,
विरह संपला म्हणून कोणाला दूर नाही करायच,
द्वेष करणाऱ्यांना आपल्या शब्दाने जिंकायच
अनाथांना मायेच्या पंखाखाली वाढवायच
देवाच्या दारी दुसऱ्याच आयुष्य मागायच
वेदना झाल्या तरी चूक आपली मानुन सार विसरायच
आपल चांगल काम करायच,
कोणी विचारल म्हणुन सांगायच,
दुसऱ्यासाठी जगायच अस वागण्यातुन जाणवून घ्यायच
प्रत्येक क्षण आनंदाने जगायच, प्रमाने सार जग जिंकायच
कोणी विचारल म्हणुन सांगायच,
माणसान माणुस म्हणून जगायच !

आयुष्य खूप सुंदर आहे, त्याला अजून सुंदर बनवायच !

"If you dream of beating me,
you'd better wake up and
apologise".

"I'm so fast that last night I
turned off the light switch in my
hotel room and was in bed before
the room was dark."

- Muhammad Ali

आनंद इंगोले
द्वितीय वर्ष

मी ते दिवस !

आयुष्याचा अर्थ सांगायला मी काही तेवढा मोठा झालेलो नाही. पण आयुष्यात मागे वळून पहाताना आठवणींच्या विश्वात रमल्या शिवाय मला रहावत नाही. काही कडू तर काही गोड काही बिकट तर काही सहजसोप्या याच आठवणी गिरवून जातात आयुष्यातला तो भाग जो कधीही विसरता येत नाही आणि कितीही हवाहवा वाटला तरी तो जगता येत नाही. तो फक्त आणि फक्त अनुभवता येतो. यात सुखाच्या आठवणी डोळ्यात पाणी आणून जातात तर दुःखाच्या आठवणी गालावर नकळत हास्य फुलवून जातात. असाच काहिसा उलटा प्रकार असणाऱ्या आठवणी अनुभवताना मात्र मजा येते आणि आपण नकळत म्हणून जातो गेले ते दिवस...! मी सुरवातीलाच म्हटलय की आयुष्याबाबत सांगणारा मी कोणीही मोठा कवी किंवा लेखक नाही. मी साधं आणि सोपं आयुष्य जगणारा फक्त एक बहुरूपी आहे. ज्याला या नाटकात रंगमंचावर अनेक रूप घ्यावी लागतात. असाच माझ्या आयुष्यातला अनुभव जो सर्वानाच कधीना कधी येतो. तोच फक्त एका वेगळ्या रूपात आपनासमोर मांडत आहे. भावनांना शब्दांची जोड देवून जमेल तीतक्या प्रामाणिक पणे मांडण्याचा मी प्रयत्न करतो.

मी, मी एका कवितेची ओळ आहे जी मला कधी जुळलीच नाही. मला आधी वाटलं की ही कविता मीच रचतोय. पण नंतर समजलं की कविता करणारा हा दुसरा कोणी आहे आणि मी फक्त त्याचा एक कवितेसाठी निवडला गेलेला विषय आणि या विषयाची कविता तेव्हाच बननार होती. जेव्हा माझ्या आयुष्यात ही कविता करण्यासारखं काहीतरी घडणार होतं आणि ते घडवलं माझ्या आयुष्यात जोडल्या गेलेल्या त्या प्रत्येक व्यक्तीने आणि प्रामुख्याने माझ्या मित्रांनी.

आयुष्याच्या वाटेवरून चालताना त्या रनरनत्या उन्हातील थंडगार सावली म्हणजे माझे मित्र होते. पाऊला बरोबर पाऊल ठेऊन चालणारे खांद्यावर हात ठेऊन आयुष्याचा ओझ कमी करणारे, दुःखात हसणारे, चालताना पाडणारे आणि पडल्यावर उठवणारे माझे मित्र.

दोन वर्षांच्या या कालावधीत खूप काही घडलं. एकट्याने चढलेलो कॉलेजची पायरी आता जोडीदारांबरोबर उतरणार होतो. आयुष्याच्या या

टप्याटप्यातले दिवस आता काहिसे संपत आलेत. कारण आता कॉलेज संपतय, ती मजा संपतीये, ती साथ संपतीये. शेवटच्या या पायरीवर आता मात्र कविता पूर्ण होतीये आणि राहताहेत त्या फक्त आठवणी. शेवटचे हे क्षण आता साठवून घ्यायचेत, हृदयाच्या प्रत्येक ठोक्यात जे जोपर्यंत जगतोय तोपर्यंत आठवतील. बांधुन ठेवायचीयेत ती सर्व नाती. जी काही दिवसात निसटणार आहेत. पकडून ठेवायचाय तो प्रत्येक धागा जो आयुष्य जखडून ठेवेल याच मित्रांभोवती. पणे ते आता शक्य वाटत नाही. कारण वेळ कुणालाही थांबत नाही तो चालतच राहतो आणि आपल्यालाही त्याच्याबरोबर चालावे लागते.

शेवटी जाता जाता एवढंच सांगेल की मैत्री कराल तर ती श्रीकृष्णासारखी करा मग मित्र सुदामासारखे असो किंवा अर्जुन, मैत्री ही सारखीच रहावी. मैत्री ही पाण्यासारखी निखळ आणि कायम वाहणारी ज्यात मित्रांचे सद्गुण दुर्गुण मिसळून जावून राहते ती फक्त मैत्री.

माझ्या आयुष्यातल्या त्या मित्रांसाठी जाता जाता मी फक्त एवढंच लिहितो.

मित्रांनो,

मैत्री तुमची माझ्या आयुष्यात चिरतरून राहील,
नसेल तुम्ही तरी ती कायम तुम्हाला धरून राहील
आयुष्याच्या प्रत्येक वाटेवर ती तुमची वाट पाहील
नाही आलात तुम्ही तरी ती कायम माझ्या साथ राहील...
माझ्या एम. बी. ए. च्या सर्व मित्रांसाठी समर्पित....!

ती एक बाप असती....

शाळेपासून बापाच्या धाकात तो राहत असतो,
कमी मार्क पडलेलं प्रगतीपुस्तक लपवत असतो.
आईच्या पाठी लपून तो बापाशी बोलत असतो,
डोळा चुकवून बापाचा हुंदडायला जात असतो....

शाळा संपते पाटी फुटते नवं जग समोर येतं
कॉलेज नावाच्या भुलभुलैय्यात मन हरखून जात असतं
हाती असलेले मार्क घेऊन पायऱ्या झिजवत फिरत असतो
बाप पाहतो स्वप्न हे मुखडा शोधत असतं...

सुरु होतं कॉलेज नवं, दिवसं भुरकन उडून जातात
एटीकेटीच्या चक्रातून, वर्ष पुढे सरत जातात,
ग्रुप जमतो, दोस्ती होते, मारामाऱ्या दणाणतात,
माझा बाप ठाऊक नाही, म्हणत धमक्या गाजत असतात....

परीक्षा संपते, अभ्यास सरतो, डिग्री पडते हाती याच्या
नोकरी मिळवत, नोकरी टिकवत, कमावू लागतो ४ दिडक्या,
आरामात पडरणारे बाजीराव, घोड्यावरती स्वार होतात
नोकरीच्या बाजारात, नेमानं मोहिमा काढू लागतात....

नोकरी जमते, छोकरी सापडते, बार मग उडतो जोरात,
एकट्याचे दोघे होतात, सुखी संसार करू लागतात,
दोघांच्या अंगणात मग, बळडं तिसरं खेळू लागतं,
नव्य कोऱ्या बापाला, जुन्याचं मग कळू लागतं....

नवा कोरा बाप मग, पोरा सवे खेळू लागतो,
जुना बाप आता नव्याने आजोबाच्या कायेत शिरतो,
पोराशी खेळता खेळता दोघेही जातात भुतकाळात
एकाला दिसतो दुसरा लहान, दुसरा पाहतो गोष्ट महान....

रंगलेल्या गोष्टीत या, मग शिरतो फ्लॅश बॅक
बापाच्या भुमिकेतून, पोर पाहतो भूतकाळ
लेकरासाठी मग त्याला कळवळणारा बाप दिसतो,
त्याची लाल रेघ जो, उरात घेऊन फिरत असतो....

कडकपणाच्या आवरणाखाली, झुळझुळणारं पाणी असतं,
भल्यासाठी लेकरांच्या झगडणारं हाड असतं,
दोन घास कमी खाईल, पण पोरांना गोड देतो,
हट्टासाठी पोरांच्या ओव्हरटार्ईम तो मारत असतो....

डोक्यावरती उन्हां झेलत, सावली तो देत असतो,
दणाणत्या पावसापासून, कुटुंब आपलं जपत असतो,
घर नीट चालण्यासाठी स्वतः बाहेर फिरत असतो,
आईच्या मऊशर तळव्यामागचा, तोच राकट हात असतो...

बाप कधी रडत नाही, बाप कधी खचत नाही,
बाप कधी उतत नाही नि बाप कधी मातत नाही,
पोरं सोडतात घरटं अन् शोधू लागतात क्षितिजं नवी
बाप मात्र धरून बसतो, घरट्याची प्रत्येक काडी....

पोरांच्या यशासोबत त्याचं मन हसत असतं,
अपयश पचवताना, तो आतून रडत असतो,
काही झालं, कितीही झालं, तरी कणा ताठ असतो,
खचलेल्या पोराला तोच तर उभारी देत असतो....

सारी कथा समजायला फार मोठं व्हायला लागतं,
बापाचं मन कठीण फार, चटकन हाती लागत नसतं,
आकाशाहून भव्य अन् सागराची खोली असते,
बाप या शब्दाची महतीच मोठी न्यारी असते....

कळत नाही बापाचं मन स्वतः बाप झाल्याशिवाय,
बापमाणुस असतो तो, बापांशिवाय कसा कळणार?
असतं न्यारंच रसायन त्याची फोड उकलत नाही,
म्हणून तर बापावर कविता कोणी करत नाही....

करणार कशी कविता कोण, तो त्यात मावत नाही
चार ओळीत सांगण्यासारखा बाप काही लहान नाही,
सोनचाप्याचं फुल ते, सुगंध कुपीत ठरत नाही,
बाप नावाच्या देवाचा, थांग कधी लागत नाही....

केला खरा आज सायास, त्याला थोडं शोधण्याचा,
जमेल तेवढा सांगितला, आधार आमच्या असण्याचा,
एक मात्र अगदी खरं, त्याच्याशिवाय जमत नाही,
आईमार्फत बोललं तरी, बोलल्याशिवाय राहवत नाही....

सांगतो आता शेवटचं, कान थोडा इकडे करा,
आभाळ पेलून धरण्यासाठी, आभाळाचाच श्वास हवा,
बाप नावाच्या पारिजातकाचं, असंच काहीसं जिणं असतं,
ते समजून घेण्यासाठी बापच असणं भाग असतं....

प्रवास शब्दाचं वर्णन करायचं म्हटलं तर, नेहमी सुखदायक दृश्यांची चित्रे मनामध्ये निर्माण होतात. पण जर नेहमी सुखदायकच असला तर खडतळ पणाचा रोमांच माणुस हरवुन बसतो. त्यामुळे जिवनाच्या प्रवासाला आनंदाची गॅलरी तर दुखाःच स्टोअर रुम असावं लागतं.

एकदा अशाच प्रवासाचा अनुभव मला डेक्कन चौकामध्ये आला. पहाटे सहाच्या सुमारची वेळ होती आणि पुर्णपणे वाहनांची कोंडी झाली होती. विचार करत होतो की दोन-तीन मिनीटांत कोंडी कमी होईल पण वर्दळ वाढतच होती. मी माझ्या चार चाकीतुन बाहेर येउन बघीतले तर मंत्र्यांच्या लाल दिव्यांचा ताफा जात होता. एकक्षणी विचारात पडलो की मंत्र्यांना लाल दिवा, काहींना पिवळा दिवा, परंतु या दिव्यांच्या चकमकत्या झोतामध्ये सर्वसामान्यांना एकच दिवा लाभू शकतो, तो निळा आणि तोही रुग्णवाहिकेचा.

विचार केला की ही दिव्यांची पध्दत कोठून आली असावी. तर ही पध्दत आली इंग्रजांकडून. इंग्रजांच्या राज्यात त्यांच्या पद-अधिकाऱ्यांना फेटा दिला जात होता आणि त्या फेट्यावर पदानुसार, लाल, पिवळे, निळे तुरे लावत असत. फरक इतकाच की त्या काळात चारचाकीच्या ऐवजी बग्गी असायची आणि उच्च अधिकाऱ्यांना व्हिक्टोरिया गाडी असायची.

या गाडीचे वर्णन करायचे म्हटले तर, व्हिक्टोरिया गाडीला चार घोडे असायचे. चालकाला समोर बसण्यासाठी जागा असायची आणि शेवटी लहान आलिशान बग्गी जोडलेली असायची.

अशाच एका मुलाची गोष्ट आहे. या मुलाचे वडील स्वातंत्र्यपुर्व काळात इंग्रजांच्या राज्यात अधिकारी होते आणि कामकाज संपल्यानंतर व्हिक्टोरियाने आपल्या बंगल्यावर यायचे आणि हे दृश्य दररोज सायंकाळी गॅलरीमध्ये उभा राहुन मुलगा बघत असे. परंतु त्याला त्या भव्य गाडीच्या आलिशान बग्गीच्या ऐवजी आकर्षण होते ते चालकाचे. कारण चालकाचा तो खाकी सदरा, हातात चाबूक आणि डोक्यावर फेटा आणि त्यावर लाल तुरा. हे पाहून मुलगा नेहमी प्रभावीत होत असे आणि तो मनात विचार करत असे की, आपले वडील का मागे बसून येतात? का बरं राजासारखं समोर नाही बसत? पण तो लहान मुलगा अजान होता. त्याला काय माहिती अधिकारी आणि घोडेस्वार मधला फरक.

एकदा घरामध्ये पाहुणेमंडळी एकत्रित झाली होती आणि प्रत्येक आई-वडील आपल्या मुलांना त्यांच्या भविष्याबद्दल विचारत होते. प्रत्येक मुलगा सांगत होता की मला कलेक्टर व्हायचं आहे तर कुणी म्हणत होतं मला उच्च अधिकारी बनायचं आहे. परंतु ज्यावेळी या मुलाला हाच प्रश्न विचारला गेला तेव्हा त्याने उत्तर दिले मला वडिलांच्या व्हिक्टोरियावर घोडेस्वार व्हायचं आहे. हे ऐकून सगळे अचंभीत झाले. आणि मुलाची आई विचारात पडली. ती विचार करायला लागली. आपल्या पालन पोषणात काही कमी राहिली म्हणुन मुलाने असं उत्तर दिलं नसावं. आणि हाच विचार करत असताना दुसऱ्या दिवशी तिने मुलाच्या अभ्यास करण्याच्या ठिकाणी पुर्णपणे बदल केला. मुलाने खोलीमध्ये आल्यावर हा बदल बघताच आईला बोलावले आणि विचारले हे काय? तर आईने उत्तर दिले की हे दृश्य आहे श्रीकृष्ण आणि अर्जुनाचे. त्या दिवशी तु उत्तर दिलं होतं की मला व्हिक्टोरियावर घोडेस्वार व्हायचं आहे. तर बघ या दृश्यामध्ये श्रीकृष्ण अर्जुनाचा सारथी आहे. जर तुला सारथीच व्हायचं असेल तर श्रीकृष्णासारखा स्वताःला घडव म्हणजे हजारो अर्जुन तुझ्या पाठीशी उभे राहतील.

पुढे हाच मुलगा मोठा झाला आणि भारताचे विश्वामध्ये नाव प्रज्वलीत केल. अशा या युग पुरुषाचे नाव आहे स्वामी विवेकानंद. स्वामी विवेकानंदांच्या विचारांचा समुद्र अथांग आहे आणि या अथांग विचारांचा समुद्र अथांग आहे आणि या अथांग विचारांच्या जलाशयातुन कित्तेकांनी आपला उध्दार केला आणि कित्तेक व्यक्ती घडले. अशा या युग पुरुषाला माझा सलाम!

चंदन...

कधी असंही जगायच असतं,
कधी असंही वागायच असतं,

खोट्या आनंदाच्या पडद्याआड,
खरं दुःख लपवायचं असतं !

काही विचारायचं असतं,
काही आठवायचं असतं,
मनाच्या मखमली पेटीत काही स्मृतींना जपायचं असतं !

दुःखातही आपल्या आसवांना
डोळ्यात आणायचं नसतं,

हसतमुखानं इतरांचं सांत्वन करायचं असतं !

दिवा बनून प्रकाश देत जवळ रहायचं असतं
चंदन बनून झिजत झिजत आयुष्य संपवायचं असतं !

मेन्नी...

कोणाच्या हसण्यात धुंद होऊन जावं....
कोणाचं दुःख मिळालं तर उधार घ्यावं....
कोणाच्या प्रेमात अखंड बुडून जावं....
खरंतर जीवन हे असंच जगावं....
मानलं आपला खिसा रिकामा आहे...
पण आपण मनाने परिपूर्ण आहोत....
संभेन जे प्रेमासाठी हे जीवन....
जळेल जे बहरण्यासाठी हे जीवन....
कोणाला असो वा नसो कदर....
आपण फक्त प्रेमात वाहतच जावं....
खरंतर जीवन हे असं जगावं....
नातं मनाचं मनाशी विश्वासाचं....
जिवंत आहे नाव आपल्यामुळेच प्रेमाचं....
कि मरुन पण कोणाच्या नेहमी आठवणीत रहावं....
कोणाच्या आसवांमध्ये हसत रहावं....
नेहमी फुलांनी पण कळ्यांना म्हणावं....
खरंतर जीवन हे असंच जगावं...

दुरीयाँ

हमे आदत हो जाती है लोगों की
पता चलता है जन उनको जरूरत नहीं होती हमारी
रिश्ता तोड़ना आसान नहीं है हमारे लिये
और रिश्ता बढ़ाना जरूरी नहीं है उनके लिये

अब और नहीं होगा हमसे ये रुठना-मनाना
फिर क्यू नहीं आता आपको दोस्ती निभाना
मुमकीन नहीं हर बार गलती माफ करना
कहीं टूट न जाये दोस्ती का रिश्ता हमारा

बहुत सारे दोस्त हैं नहीं हमारे लेकीन
एक बार जो दोस्ती करलो तो साथ छोड़ते नहीं किसीका
हम तो नहीं भूल पायेंगे आपको
क्या हमे भुलाना आसान लगता है आपको?

माझी मुलगी...

जागोजागी भेटत असते माझी मुलगी
कोणाच्याही मुलीत दिसते माझी मुलगी
हळूहळू मग चालतात हे वादळवारे
झोक्यावरती जेव्हा बसते माझी मुलगी
कर्जाचा हा डोंगर थोडा हलण्यासाठी
मुलासारखी राबत असते माझी मुलगी
तीला न रुचते नटणे - बिटणे तरी नेहमी
परीसारखी सुंदर दिसते माझी मुलगी
मला मिळाले किती चांगले आई - बाबा
मैत्रीणींना सांगत असते माझी मुलगी
गळ्यात माझ्या घास उतरण्यास नाही म्हणतो
अवती भवती जेव्हा नसते माझी मुलगी
चित्र काढते, पोळ्या करते, गाणे गाते
दुःखालाही खुशाल पिसते माझी मुलगी
घरी यायला मला जरासा उशीर होतो
आई सोबत जागत बसते माझी मुलगी
तीला लागली गझलांचीया खोड आगळी
रात्री माझ्या कुशीत शिरते माझी मुलगी
आठवते मज माझी आई अशीच होती
जेव्हा माझे डोळे पुसते माझी मुलगी
तीला न्यायला राजकुमारा उशीरा ये तू
अजूनी मजला अल्लड दिसते माझी मुलगी

माणूस माणसातला राहिलाय कुठ ?

माणूस माणसातला राहिलाय कुठ ?
स्वतःचा विचार सोडून दुसऱ्यांचा विचार करणारा ।
माणूस हल्लि राहिलाय कुठ ?
दुष्कर्म सोडून सत्कर्म करण्याचा विचार कोणी करतय कुठ ?
मदतीचा हात मागितला तर मदत करणारे हात पुढे येतायत कुठ ?
स्वतःच्या स्वार्थीपायी दुसऱ्यांचा द्वेष करणारा माणूस.
दुसऱ्याच्या दुःखात सहभागी होतोय कुठ ?
स्वतःच्या राष्ट्रासाठी झगडणारी माणसे हल्ली घडतायेत कुठ ?
घडणार तरी कसं, त्यांच्यामध्ये खरेपणा उरलाय कुठ ?
माणसामाणसा प्रेम राहिलय कुठ ?
नाती असली तरी त्यात गोडवा उरलाय कुठ ?
देवा अजब बनवलीस तु दुनिया.
त्यात माणूस नावाचा पुतळा चालतो बोलतो
पण हल्ली तु त्यात जीव ओतलाय कुठ ?
माणूस म्हणुन जगावसं वाटतं, पण दुनिया तशी राहिलीय कुठ ?
पैशाला सर्वस्व माणणारी दुनिया
पण देवा त्यात तुझा विचार कोणी करतय कुठ ?
माणसातला माणूसचं हरवलाय
देवा तो मी शोधू कुठ ?
