AISSMS IOM has been a budding identity in the corporate world. We are an A+ class institute when it comes to student's knowledge enhancement. 17 years ago when the institute was incorporated, I was a part of the 1st batch of 60. The institute since then has always had a clear focus on corporate engagements to give a reality check to all its patrons. It's focus on case studies, extracurricular activities has helped throughout my 12 year career across brands like Radio Mirchi, Times of India, MiD DAY, and Sakal. Today as the brand head for Maharashtra Times, Pune I am thankful to the director and all faculties to make us Industry ready.

Partha Joshi
Chief Manager
Times of India Group

An institute derives its strength from the intellectual acumen of the student there in. The AISSMS IOM has come a long way since its inception in 2002. With over a decade of the experience in imparting professional education, the AISSMS IOM has established stellar benchmark in the field. I was indeed privileged to be part of this institute in 2005 - 2007 batch and contribute to its eventful Journey. The institute boasts of a state-of-the-art teaching learning infrastructure today and employs technology in major aspects related to both student teaching and student administration. Such interventions in turn have brought about greater transparency and accountability in the functioning of the institute. I am confident that this will only propel the growth of the institute further. Finally, I would like to relive each and every day of my tenure at AISSMS IOM.
