An institute derives its strength from the intellectual acumen of the student therein. The AISSMS IOM has come a long way since its inception in 2002. With over a decade of the experience in imparting professional education, the AISSMS IOM has established stellar benchmark in the field. I was indeed privileged to be part of this institute in 2005 -2007 batch and contribute to its eventful Journey. The institute boasts of a state of art teaching learning infrastructure today and employs technology in major aspects related to both student teaching and student administration. Such interventions in turn have brought about greater transparency and accountability in the functioning of the institute. I am confident that this will only propel the growth of the institute further. Finally I would like to relive each and every day of my tenure at AISSMS IOM
